FC Napoli Story

Coach Esad Darman at the first ESA Camp in 2003

FC Napoli was established in November of 2002.

Napoli evolved from a frequent gathering of premier coaches sharing a common opinion that too many young athletes of quality were not receiving the training they needed to properly develop as soccer athletes. To this end FC Napoli has grown to provide young players a pathway of training for those who truly desire to work at developing their soccer skills.

FC Napoli's quick success in recent years can be directly attributed to Bosnian native Esad Darman. A former Professional and National

team soccer player and Professional coach. Esad has brought a European flavor to both the training and coaching to the FC Napoli athletes.

In the December of 2002 FC Napoli began training about 50 young soccer players.

By the summer of 2003 the player numbers had grown to over one hundred twenty. Coaches and parents watched as young athletes began to develop into what are now some of the finest soccer players in Central Massachusetts.

FC Napoli Club Teams have rostered high school players on Central MA Championship teams from 2004 - 2008.

The FC Napoli club has currently grown to include over 250 soccer players ages 8 to 18. Athletes reside in over 40 communities throughout central Massachusetts, northern Connecticut and RI.

FC Napoli has graduated over 40 athletes from its senior programs and nearly every Napoli player has put on an NCAA college uniform.

"Our training methods have proven that if young soccer players train regularly and stay committed to our development stages over the years, they will have a quality high school career and likely play in college if they so desire". Coach Darman,

The future history of FC Napoli will be written in the many matches yet to be played.
